

EVER WISH YOU COULD TALK TO YOUR CAT? WELL, NOW YOU CAN!

Master cat language
in this guide to
pet behavior.

Cats tell us how they're feeling by the way they stare at us, how they move their tails, and how they speak—using their own distinct lingo of meows, yowls, and purrs! This guide features more than 55 different feline poses with detailed explanations of their meaning. Learn why your kitty likes to climb way up high, what it means when she flops belly-up in front of you, what each tail position says about your cat, and a lot more! Test yourself in the interactive “Kitty Case” section, in which our feline expert presents the scenario and YOU determine what it means. This book is

packed with info for cool cats, including rich resources that will help humans better understand the behavior of their amazing pets.
