

Name: _____

ZOO FOODS

In the wild, animals spend hours every day finding food. But in the zoo, keepers fix their meals. Pretend you're a zookeeper and invent a crazy recipe to feed the animal under your care. A recipe is a list of instructions for preparing and cooking foods. Tell what type of animal would eat this meal. List the ingredients needed. Suggest what utensils to use. Then give step-by-step instructions for preparing the dish.

Animal Type (species): _____

Ingredients List: _____

Utensils Needed: _____

How to Prepare: _____
